

## ANNEX 1

# APPLICATION AND EVALUATION FORM OF THE PROPOSAL

## Competitive Open Access (C.O.A.) to ReDIB

Instituto de Investigación  
Sanitaria La Fe

Reference: REDIB-02-PDA/ANNEX 1		Revision: 3	Date: august 2024
Approved Node ReDIB			

## APPLICATION FORM COA -ReDIB-

Call COA-ReDIB				Date			
Brief description of the requested proposal (max 100 characters)							
Applicant	Name and Surname			ORCID			
	Entity			Email		Phone	
Source of funding <i>Specify references of the R&amp;D&amp;I Research Project in which the requested proposal is integrated</i>		Project Title					
		Official code Project					
		Funding agency					
		Type of Project		<input type="checkbox"/> National <input type="checkbox"/> International, non-European <input type="checkbox"/> Regional <input type="checkbox"/> European <input type="checkbox"/> Internal <input type="checkbox"/> Private <input type="checkbox"/> Other			
Subject Area <i>Indicate the thematic area of the project according to the AEI classification: <a href="https://www.aei.gob.es/areas-tematicas/areas-tematicas">https://www.aei.gob.es/areas-tematicas/areas-tematicas</a> or the closest match</i>		<input type="checkbox"/> 1. CSO / Social Sciences		<input type="checkbox"/> 2. DER / Law			
		<input type="checkbox"/> 3. ECO / Economy		<input type="checkbox"/> 4. MLP / Mind, language and thought			
		<input type="checkbox"/> 5. FLA / Culture: Philology, literature and art		<input type="checkbox"/> 6. PHA / Studies in history and archaeology			
		<input type="checkbox"/> 7. EDU / Educational Sciences		<input type="checkbox"/> 8. PSI / Psicology			
		<input type="checkbox"/> p. MTM / Mathematical Sciences		<input type="checkbox"/> 10. FIS / Physical Sciences			
		<input type="checkbox"/> 11. PIN / Industrial production, engineering		<input type="checkbox"/> 12. TIC / Information and communications technologies			
		<input type="checkbox"/> 13. EYT / Energy and Transport		<input type="checkbox"/> 14. CTQ / Chemical sciences and technologies			
		<input type="checkbox"/> 15. MAT / Materials Sciences and Technology		<input type="checkbox"/> 16. CTM / Environmental science and technology			
		<input type="checkbox"/> 17. CAA / Agricultural sciences		<input type="checkbox"/> 18. BIO / Biosciences and biotechnology			
		<input type="checkbox"/> 19. BME / Biomedicine		<input type="checkbox"/> 20. Other (specify)			
ReDIB essential facilities offered as COA <i>Select the requested ICTS node and indicate the access time you consider necessary for your proposal.</i> <i>If you cannot estimate the necessary time, contact the corresponding node to receive guidance on the matter.</i>		<input type="checkbox"/> BiolmaC		<input type="checkbox"/> MRI 1 T	COA hours requested		
				<input type="checkbox"/> Cyclotron	COA hours requested		
				<input type="checkbox"/> Radiochemistry Lab	COA hours requested		
		<input type="checkbox"/> CIC biomaGUNE		<input type="checkbox"/> MRI 7 T	COA hours requested		
				<input type="checkbox"/> MRI 11.7 T	COA hours requested		
				<input type="checkbox"/> PET-CT	COA hours requested		
				<input type="checkbox"/> SPECT-CT	COA hours requested		
				<input type="checkbox"/> Cyclotron	COA hours requested		
		<input type="checkbox"/> Imaging La Fe		<input type="checkbox"/> Radiochemistry Lab	COA hours requested		
				<input type="checkbox"/> MRI 3 T	COA hours requested		
		<input type="checkbox"/> TRIMA – CNIC		<input type="checkbox"/> PET-MRI	COA hours requested		
				<input type="checkbox"/> MRI 3 T	COA hours requested		
<input type="checkbox"/> MRI 7 T	COA hours requested						
<input type="checkbox"/> Nano PET-CT	COA hours requested						
		<input type="checkbox"/> Multidetector-CT	COA hours requested				
Please specify the service modality you would like to opt for <sup>2</sup>		<input type="checkbox"/> Full assistance		<input type="checkbox"/> Presential	<input type="checkbox"/> Self service		
Please specify which of the following ReDIB areas of specialization your proposal best fits into		<input type="checkbox"/> Clinic	<input type="checkbox"/> Preclinic	<input type="checkbox"/> Radiotracers	<input type="checkbox"/> Radiochemistry Lab		

<sup>1</sup> Requested access time: cannot exceed the maximum offered in the AAC call for the indicated installation. Proposals that require more hours of work. If you are unable to estimate the access time required to undertake the experimentation associated with the Proposal, consult with the ReDIB node involved. <sup>2</sup> Full assistance: the requested experiments are carried out by ReDIB technical staff, following the user's requirements, but without the user's physical presence at the centre. In-person: The user can participate and assist ReDIB technical staff during the development of the experiments. Self-service: The user, after ad hoc training by ReDIB, directly uses the infrastructure to which he or she has been granted access, always under the supervision of ICTS technical staff. Not all service modalities are available for all installations. In case of doubt, please contact ReDIB technical staff.

## AUTHORIZATIONS, COMMITMENTS AND DECLARATIONS

The electronic signature of this form is MANDATORY, and with it the applicant,

1. **AUTHORIZES** ReDIB, if its AAC application is accepted, to publish the following information on its website: access code, principal investigator, entity, project title, essential facility and node in which the experiments will be carried out.
2. **COMMITTS TO:**
  - a. **INCLUDE** an express mention of ReDIB in scientific publications resulting from the COA granted.
  - b. **NOTIFY** published results to [info@redib.net](mailto:info@redib.net)
3. **DECLARES** what is marked in the boxes below

- I have already contacted ReDIB or one of its nodes, where they have confirmed the TECHNICAL FEASIBILITY\* of the experimentation for which I request ICTS access in this Proposal.
- This Proposal involves the use of EXPERIMENTAL ANIMALS, and for this purpose I have the corresponding approval from the Ethics Committee, as well as other documentation that may be required (i.e., Animal Experimentation Procedures, health certificates, veterinary approval for the transfer of animals...)
- This Proposal involves HUMANS as subjects of study (i.e., clinical trial) and for this purpose has the mandatory approval by the Ethics Committee. I undertake to provide, when requested by ReDIB, all relevant information in this regard.

**DATA PROTECTION.** The personal data collected in this document will be incorporated and processed in the file "ICTS ReDIB USERS", the purpose of which is to receive and evaluate requests for use of the ReDIB facilities. The user may exercise their rights of access, rectification, deletion and portability of their data before the nodes that make up ReDIB, as entities jointly responsible for the "ICTS ReDIB USERS" file, through the procedure for exercising personal data rights available on the ReDIB website: [www.redib.net](http://www.redib.net). All of which is reported in compliance with article 6 of Organic Law 3/2018, of December 5, on the Protection of Personal Data and guarantee of digital rights.

- Having been informed of the processing to which my personal data will be subject, I freely give my consent to such processing.

Electronic signature of the applicant:

\* In order for an COA Proposal to be approved and prioritized, it is necessary to ensure that ReDIB, at any of its nodes, can technically undertake the requested service or experimentation. Therefore, it is recommended that AAC applicants consult in advance about the TECHNICAL FEASIBILITY of their Proposal, contacting the ReDIB node most directly involved in it, and, in any case, provide in this form all the details of the experimentation that the Proposal contemplates to be carried out at ReDIB facilities.

### **General Information and Instructions for Completing this Form**

ReDIB infrastructures and services are available to all members of the national and international scientific community, who can access them under the Competitive Open Access (COA) modality, or under the Access on Demand (AOD) modality. In the first case, COA, access to the essential ReDIB facilities is free or with minimal costs for the user (i.e., consumable costs), while in the AOD modality the rates published on the website of the nodes that make up this distributed ICTS apply. ReDIB declares its firm commitment to offer at least 20% of the capacity of its essential facilities in COA mode.

The approval of the COA to the essential ReDIB facilities requires adequate justification that the access proposal complies with sufficient scientific-technical quality. In this sense, the proposals received that are part of R&D&I projects financed by a competitive call from an international or national funding agency will be deemed to meet the required quality, and will therefore be automatically approved, with their access to the ICTS being conditioned by the score obtained in the evaluation and their position on the priority list. Otherwise, if no data is provided on the existence of a competitively funded parent project, the applications will be approved or not based on the relevance and opportunity criteria applied in the evaluation and, once approved, their access is also conditioned by the score obtained.

In all cases, to obtain the corresponding score, which will allow the prioritized list of approved applications with assigned access to be drawn up, all the sections of this access application must be properly completed, which are related to the different criteria that will be assessed by the ReDIB Access Committee, in order to establish the priority of each of the approved accesses in each COA call.

**Provide arguments supporting the scientific-technical relevance of the proposal, its quality and originality**

**Briefly describe the experimental and methodological design that you intend to carry out during your access to ReDIB**

**Justify your expectations for future scientific-technical contributions and express your commitment to publish and disseminate the ICTS access you are now requesting.**

*Information for ReDIB Coordination Committee*

**Describe the strengths and/or impact of your proposal, in terms of advancing knowledge and innovation**

**Explain the social, economic or industrial significance of the result obtained with the access granted**

**Explain criteria of opportunity or impact on the advancement of knowledge or in the translational or applied field of the research you plan to carry out during your access to ReDIB.**

*Information for ReDIB Coordination Committee*

**TO BE COMPLETED BY THE EVALUATOR**

Scientific and technical relevance of the proposal and its underlying project				
CRITERIA	0 POINT	1 POINT	2 POINT	TOTAL
Quality and originality of the project and research plan	The submitted project has acceptable quality and originality.	The submitted project has a good quality and originality	The submitted project has an excellent quality and originality	
Adaptation of methodology, design and work plan to the objectives of the proposal	An experimental design has not been presented, or it is considered inadequate	The methodology and work plan are considered acceptable or good	The experimental design is carefully crafted and well suited to the objectives.	
Expectations of scientific and technical contributions derived from the proposal	The proposal does not refer to expectations of publication/dissemination of its results.	The request sets out well-founded expectations of future contributions arising from the proposal.	The proposal sets out well-founded expectations of contributions arising from the requested ICTS access, and undertakes to document this.	

Opportunity/impact of the proposal				
CRITERIA	0 POINT	1 POINT	2 POINT	TOTAL
Contribution of research to the advancement of knowledge	The application does not justify or refer to a possible contribution to the advancement of knowledge, or any innovative contribution.	The application provides well-founded expectations of advances in knowledge or innovations in the field of the proposal	The request fully justifies its timeliness and impact due to the advancement of knowledge and innovation that will result from the planned studies.	
Potential social, economic and/or industrial impact of the expected results	The application does not provide arguments as to a possible social, economic or industrial relevance of the expected results.	The application begins to analyze possible social, economic or industrial repercussions of certain significance.	The application argues in detail the importance and/or social, economic or industrial significance that the expected results will have.	
Opportunity for exploitation, translation and/or dissemination of the expected results	No criteria of opportunity or impact on the advancement of knowledge or in the translational or applied field are mentioned.	The request generates well-founded expectations of being able to respond to timely issues of exploitation, translation or dissemination of results.	The request is convincing regarding the generation of responses to scientific-technical questions of undeniable opportunity, impact and/or application.	

<b>ACCESS RESOLUTION</b>	<p><input type="radio"/> <b>APPROVED</b> because it is based on a Research Project funded competitively by a European or national R&amp;D funding agency or administration, or because it meets, in the opinion of this evaluator, ACCEPTABLE QUALITY AND SCIENTIFIC-TECHNICAL RELEVANCE criteria.</p> <p><input type="radio"/> <b>DENIED.</b> The planned research is not competitively funded by a European or national R&amp;D funding agency or administration, nor does it meet or provide, in the opinion of this evaluator, scientific-technical quality criteria that make it eligible for the benefits of Open Access to ReDIB.</p>
